Men's and boy's suits, price greatly reduced for ten days. All goods marked with sale prices.	

## J. V. BERSCHT

### NOTICE

#### Dairymen's Association and Milk Producers

All those who wish to have their barns inspected and cattle tested should report to me as I am sending in the names every few days and all those who do not report this month will have to wait for some time before same can be carried out, thus causing considerable delay besides being cut off from supplying milk of sweet cream.

These regulations were issued by the Health Department of the City of Calgary and the federal authorities.

W. J. SCHEIDT  
Secretary Dairymen's Assoc'n.

#### DEATH OF MRS GREEN- FIELD

The death of Mrs. Herbert Greenfield, wife of Premier Greenfield, occurred in Edmonton last Saturday after a short illness. The Premier and two sons, Arnold and Frank, were at the hospital with her when she died.

The whole province will sympathize with Mr. Greenfield in his loss which has come at a time when his public duties are so heavy upon him.

Mrs. Greenfield was born in Adelaide township, County of Middlesex, Ont., in 1871, being married to Mr. Greenfield in 1900 and coming to Alberta with him in 1906.

#### Big U.F.A. Convention Now Being Held

The big U. F. A. Convention opened at the Baptist church, Calgary, on Tuesday morning and the city's population was increased over 2,000 by the delegates attending both the U. F. A. and the U. F. W. A.

The provincial board sent a telegram of condolence to Premier Greenfield on the sudden death of his wife. Premier Greenfield will not attend the Convention.

Lieut-Gov. Brett and Mayor Adams officially delivered addresses of welcome.

There will be over 200 resolutions submitted to the convention covering a multitude of subjects.

A year of rapid growth in the membership of all branches of the U. F. A. has been recorded during 1921. The total paid-up membership of 37,679, according to the latest available figures, includes 4,200 members in the U. F. W. A. and 1,479 juniors; the membership apart from these divisions being approximately 32,000. The membership in all branches in 1921 was 30,760, of whom 3,926 were in the U. F. W. A. and 912 juniors.

A resolution was passed unanimously that no members of either provincial or Dominion parliaments should hold office on the Executive of the U. F. A. President Wood gave a very dignified and sensible address to the Convention.

A resolution was passed that the annual membership fee

#### Didsbury Exhibits at Edmonton

The Didsbury Agricultural Society have announced their intention of having the Didsbury district represented at the forthcoming Provincial Seed Fair and Annual Convention of Agricultural Societies to be held in Edmonton on the 14th and 15th of February. Any resident of the district having any particularly good products of his farm is asked to get in touch with the Secretary, Mr. Geo. Wigglesworth, and arrange to have it placed in the exhibit. Exhibits of grain, grasses, roots, vegetables, dairy products, eggs and photos of live stock and farm dwellings will be gladly received, and will be arranged to the best advantage for advertising purposes. A delegate from the local Society will be in charge of the exhibit, and there is no doubt that it will do a lot of valuable advertising for the district.

Exhibits of non-perishable goods will be shipped by freight on Friday, February 10th, and the perishable articles will be taken by express on Monday, February 13th. Full particulars can be had by phoning 41.

should remain \$2 instead of \$1.

The Executive committee suggests the publication of a paper which is to be issued to each member and the cost included in the membership fee. This paper to take the place of circulars and bulletins now issued by the head office and to be confined to organization matters. Advertising will be solicited to help defray the expenses.

Secretary Hugginbotham gave a financial report as follows:

"Total receipts at central office during the year amounted to \$48,685.78, and the total expenditure \$50,165.60, leaving a deficit of \$7,479.82. This is compared with the total receipts for 1920, \$42,819, and total expenditure \$45,608.52, the deficit on last year's expense and revenue account being \$2,789.52. It was necessary this year to negotiate a loan to provide for current expenses. It is hoped that the finances can be so adjusted for the coming year as to wipe out the deficit and give us a clean start."

The Red Cross Society of the province which is in charge of the distribution of clothing to the drought areas of the province, have opened a campaign to raise between \$50,000 and \$100,000 to carry on this work. The appeal has received the endorsement of Premier Greenfield.

You are to go the road you see to be the straight one, carrying whatever you find is given you to carry, as well as as stoutly as you can, without making faces, or calling people to come and look at you.

#### AROUND THE TOWN

The Rugby Women's Institute are holding a Valentine entertainment and sale in the schoolhouse on Friday evening, February 10th.

A general meeting of the Curling Club will be held in P. R. Reed's office on Monday evening at 8 o'clock for the purpose of receiving the report of the Bospital committee and taking action thereon.

Services will be held in the Baptist church next Sunday at 2.30 p. m. All welcome. Rev. W. S. Watson of Olds preacher. Mr. Parker Reed while entering the skating rink on Tuesday night slipped on some ice by the door and fell, hurting his ankle very badly. We have not ascertained whether it is only sprained or broken but hope for the best.

The ladies of the town of Didsbury are putting on a dance in the near future, proceeds of which are to go in aid of a nurses home. The exact date has not been decided but post-business will be transacted. Officers will be out in a few days announcing it. Good music is

being arranged for.

Mr. T. H. White of Elkton, was an exhibitor of poultry at the Edmonton poultry show last week and showed a blue turkey, which is the only specimen in Alberta and was a great attraction at the show. He had over twenty-two entries of turkeys alone, which included white Hollands, bronze, red Bourbon and blue.

Tuesday night the hockey boys again ran up against the Crossfield team and a very interesting game was played. The home boys won by a score of 3-2. There was a very poor crowd in attendance but this may be improved on in future if the boys keep on winning.

Mrs. J. H. Lowrie acted as hostess at a very enjoyable party last Thursday evening. Whist was played during the greater part of the evening. Miss Ruby Weber coming out with high score. After a dainty lunch was served there was some singing and dancing before the party broke up.

A general meeting of all those interested in the Memorial Club will be held in the Club rooms on Friday evening. Election of officers and other important business.

Continued on page 5.

#### The Way to Save

It is the systematic regularity with which you make small deposits, rather than the occasional banking of a considerable amount, that steadily builds up a substantial financial banking.

Get the habit of definitely depositing. Three dollars saved every week, with interest at 3% compounded semi-annually, in five years will amount to \$841.02.

## Announcement

### School on Gas Engineering

I have arranged with Mr. Hardman, of Calgary, who is a practical Gas Engineer with an extensive experience to hold a series of classes at my store during the two weeks from

**Mon., Jan. 30th to Sat., Feb. 11th.**

The principles of the gas engine, the most common troubles and how to detect and remedy them, will be thoroughly demonstrated at this school, and anyone attending will receive an intelligent understanding of how to operate and care for their gas engine.

A nominal fee will be charged to cover the expenses of the school. Classes will be arranged according to the number enrolled.

For full particulars see or phone

**G. A. WRIGGLESWORTH, Phone 41**

NEVER COOK UP COLD MEAT WITHOUT IT

## Canada's Needs

## No. 2—Agricultural Prosperity

Concluding the first article in this series in which the greatest need of Canada, in order that it may become the nation nature intended it should be, was declared to be adequate population, the view was expressed that, first and foremost, it should be definitely ascertained why so many people left the country; in a word, why Canada failed to hold the people who immigrated to the Dominion, and even failed to hold its own native born.

The fault should be clearly established, and, in the opinion of the writer, it is not far to seek. It is, we believe, to be found in the fact that, despite Canada's enormous area of fertile agricultural land, the wonderful productivity of its soil, and the virility of its climate and people, the business of farming is not a paying one, with the inevitable consequence that agriculture languishes and thousands of people who engage in it give up after years of struggle, while other thousands go on from year to year without making any material advance and become wholly disheartened.

As long as such a condition continues, and millions of acres of fertile land remain uncultivated and unproductive, all industry in the west will suffer, our railways will continue to be operated at a loss or be forced to impose such heavy rates upon the commerce of the country as to constitute another and serious obstacle to settlement, development and the business of the Dominion.

All observant men must admit that there is something radically wrong when the second largest grain crop ever raised in the Prairie Provinces, that is so far as quantity is concerned, proved to be, not a debt-paying crop but a debt-producing crop. The hundreds of millions of bushels of grain grown and harvested in 1921 should have given a great impetus to business in Canada, should have paid off millions of debt contracted in the previous poorer years, and should have started many people on the road to prosperity. But, alas, taken as a whole the crop of 1921 cost the farmers more to produce it than they realized from its sale. And this disheartening experience of the grain grower was duplicated in the case of the livestock producers.

Under conditions such as these it is quite futile, and a waste of time, energy and money to secure thousands of new settlers to come to Canada and engage in agricultural production. Conditions confronting and governing agriculture in Canada must first be righted.

There will always be years in which adverse weather conditions occur, years when plagues of grasshoppers, or rust, or some other pest will prevail to a certain extent, but every farmer is prepared for these. These things alone did not bring thousands of Western farmers face to face with disaster and ruin this year. Despite such drawbacks, and notwithstanding the high costs incurred in connection with the raising and harvesting and marketing of the 1921 crop, there would have been a profit had anything like a price comparable with the costs of production been obtainable. But just as soon as the crop began to move the bottom fell out of the market and the grain had to be sold, if sold at all, at a price less than the costs of production and transportation.

That's the situation in a nutshell, and the result is that not only the Western farmers, and the West generally where prosperity depends upon the success of the farmers, but the whole industrial world in Canada is suffering. Business in the East as well as in the West is in the doldrums, is vitally, seriously, affected.

Agriculturists, we repeat, expect to face the vagaries and cope with the vicissitudes of nature, but as individuals they cannot combat such a combination of circumstances as confronted them during 1921 and will confront them again unless Canada wakes up as a nation and grapples with what is our outstanding national problem. A solution must be found, and found speedily, if Canada is to grow and prosper.

Canada can only live and prosper by developing a large and profitable export trade, the chief exports of this Dominion are, and for many years must continue to be, the natural products of its farms, its mines, its forests, and its fisheries. World markets for these products must be found and developed. The fiscal policy of this Dominion should be so framed as to encourage such a development.

A home market for factory products is of no value if the home people must not the money wherewith to purchase the manufactured goods, and the great mass of Canadian consumers cannot have money if the products of Canada's farms do not command a price in excess of the cost of producing grain and livestock.

Thickly populated countries may be self-contained, with an industrial urban population sufficiently large to consume all that the agricultural rural population can raise, and vice versa, but not so in a country like Canada with an enormous undeveloped area of arable land and other natural resources and a sparse population thinly spread out in a line three or four thousand miles long. Canada must produce more from its land than its own people can consume, and a profitable market must be found for the surplus in order that the whole country may prosper.

## To Extend Railway

Int. North From Cochrane Will Open  
Up Rich Area  
The Ontario Government is calling

for tenders to extend the Temiskaming and Northern Ontario Railway from Cochrane 70 miles toward James Bay. The cost is expected to be under \$2,000,000. This railway will open up one of the finest agricultural areas in the north country; also great timber areas and almost unlimited water power. It is estimated that at the Th. Can. Portage, where the proposed extension will end, are water powers running to waste which would produce 300,000 horsepower.

**Coldest Place in U.S.**  
Barrow, Minn. is said to be the coldest place in the United States. Its winter temperatures are lower than the winter temperatures of Alaska. At Point Barrow, the northernmost point of Alaska, the lowest recorded temperature is 64 degrees below zero, while Barrow not infrequently records temperatures below 60 degrees.

Minnard's Liniment For Coughs in Cows

## Woolen Mill For Victoria

British Syndicate Will Specialize in  
Worsted Materials

A British syndicate proposes the establishment of a woolen mill in the city of Victoria. The company states that it is their intention to specialize in worsted materials of high quality, and carry through the entire process from cleaning and preparing the raw wool to the production of the finer grades of worsted suitings.

## WHEN WOMEN SUFFER

Look for weakness or ill health. See if there is not a side ache headache, restlessness and the "blues." The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pink Pills. This soothing medicine is a great friend to women. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pink Pills with great results. They can use no other medicine and rely solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order. See all dealers or The Cataractine Co., Montreal.

"Oxy" is the last word in the English language, according to the new Oxford dictionary.

THIN, Watery Blood  
MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes  
and Rosy Cheeks

The girl who returns home from school from work thoroughly tired out will be fortunate if she escapes a physical breakdown. Because this setting in of the system is probably the first warning symptom of a thinning blood that must not be disregarded. If it is left unchecked, it will begeth.

When the blood becomes thin and impure the patient becomes pale. She not only loses color but often suffers from dizziness, palpitation of the heart, head aches and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Helma LaFreniere, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, had headache, nervousness, and was tired almost every day. I decided to give Dr. Williams' Pink Pills a trial, and in my case I had three boxes. I felt much better and I continued taking the pills until I felt as well as I ever did. For what they did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail for \$3.00 a box or six boxes for \$16.00 from The Dr. Williams Medicine Co., Brockville, Ont.

## Counting House Genius

An electrically driven instrument is now made which notations the hum on envelopes, turn down the Bap, reads the figures on their various counts and then turns them out ready for post—all at the rate of one hundred a minute.

It is usually safe to say that when a child is pale, thin, poorly clothed and red-rimmed, the cause is worms. These parasites gnaw the stomach, and interfere with the normal action of the digestive organs, preventing the "infant" from deriving nutriment from food. Miller's Worm Powder, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

A theatre ticket stamp of Munich is said to have invented the lithograph process in 1796.

FACE WAS FULL  
OF PIMPLES

For Three Years, Hard and  
Awfully Sore, Disfigured.  
Cuticura Heals.

"I had been suffering with a pimply face for three years. My face was full of pimples and they were hard and awfully sore. They festered and dried up, and were scaly, and disfigured my face. They caused me to lose a lot of sleep, and were awfully itchy, making me scratch and irritate my face."

Use Cuticura. Use Cuticura Soap and Ointment and I used two cakes of Cuticura Soap and two boxes of Cuticura Ointment, and my face was healed."—Clifford Yeomans, East Chesapeake, N.S.

Use Cuticura for every-day toilet purposes. Bathe with Cuticura soap, anoint with Ointment, dust with Talcum. Soap 25c. Ointment 25c. and 50c. Sold Everywhere. Beware of cheap imitations. Genuine Cuticura Soap also without cost.

## "YOUR TEETH"

## CLEFT PALATE

By MRS. FRANCES NEWMAN  
D.D.S., M.D., Editor of "Oral Hygiene"

The roof of the mouth is called the palate. There are two parts to it, the hard bony part surrounded by teeth, which is naturally called the hard palate, and the soft part that is so sensitive, at the back of the mouth, called the soft palate.

Some unfortunate children are born with a separation of the palate lengthwise. In these cases the nose and mouth open into each other.

It is very difficult to feed cleft palate children and if they do grow up, they have a lifetime of suffering and embarrassment. They cannot speak clearly and have great difficulty with the fluids of the mouth and nose. Usually through the border of the upper lip.

Two methods are used to give relief to these children. One is to perform an operation, or rather a series of operations, to close the roof of the mouth and the opening in the lip.

The other way is to make a plate that will mechanically close the opening in the palate.

The nature of the deformity makes the wearing of this device very unpleasant for the patient.

When a child is born with a hard lip and cleft palate, the first thing to do is to get a cleft palate nursing nipple, because these children are so very hard to feed. Then have the plates custom made as early as possible. If these children are successfully operated on before they learn to talk, the voice will be normal. If the cleft is left until the child becomes accustomed to the faulty use of the tongue that is necessary with the open palate, his speech will never be perfect.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Many do know, however, from experience how immeasurable is the relief provided by that preparation Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most cruel of ailments. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Lends West in Honey Production  
Manitoba's honey production for 1921 amounted to 995,000 pounds, derived from 14,721 colonies of bees. The province is the largest honey producer in Western Canada in the production of honey, followed by British Columbia with 265,672 pounds.

## Killed By Blood Poison

Used an old remedy for paring his corn. Football became 25c buys a bottle of Putnam's Corn Extractor and he was cured. He was cured of his corns and warts without pain. No failure if you use "Putnam's." Remember a substitute, 25c everywhere.

## Training Canadians To Speak

Value of Teaching the Youth How to Speak in Public

One of the most important projects undertaken in connection with public schools, high schools, universities, and by professional instructors, is that of teaching the young Canadians how to speak in public.

Ideas and thoughts only have value in direct proportion to the extent to which they are uttered.

The crusades would never have materialized had Peter the Hermit not inspired the Christian world with his fiery eloquence. Without his ability to talk the capture of the Holy Land would have remained as a vague distant dream in Peter's brain.

People go to church and hear a sermon. If the minister is a trained speaker, his ideas are twice as effective as the ideas of the preacher with a halting tongue.

Upon the clarity of a school teacher's delivery depends the thoroughness with which pupils receive and digest new ideas.

Business men meet together to discuss business problems and new sales methods. The merchant who can clearly put his thoughts and discoveries before his colleagues, elevates business as a whole.

Organs of speech were given man to use. It is man's duty to bring them to as great a state of efficiency as his muscles, his brain or any other part of his body.—Vancouver Sun.

Minnard's Liniment For Colds, Etc.

MISS FRANCES NEWMAN,  
Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Tanlac did for me and there in nothing but good enough for me to say about it," said Miss Frances Newman, 2639 Hirsch, St. Chicago.

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had vomiting, pain and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Since taking Tanlac I feel and look like a different person. I have an splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me I'm always smiling now and I certainly ought to be, for 'I'm enjoying life again.'"

Tanlac is sold by leading druggists everywhere.

## Prefers Horse to Auto Truck

One of the largest department stores in Chicago, is reported to have recently offered for sale nine auto trucks, and the same week placed an order for fifty heavy draft horses.

It Will Relieve a Cold—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation quickly and thoroughly and will strengthen them against subsequent attack. And as it causes the inflammation it will stop the cough because it soothes all irritation in the throat. Try it and prove it.

The first stockings were bandages wrapped around the feet.

Light penetrates 3,000 feet below the level of the ocean.

The first rail stove was constructed by an Englishman in 1821.

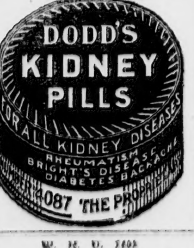

STRENGTH AND HEALTH  
Red Blood, Vigor, Vitality Follow This Advice

Niagara Falls, Ont.—"As my parents have used Dr. Pierce's remedies with such wonderful and quick results I take great pleasure in endorsing a good word to boost the cause of 'Freedom from Illness.' I have used the Golden Medical Discovery for almost ten years. Am a proponent of the labor is worth anything and injurious to the system. But today business has no drawback for me. 'Three Cures for Dr. Pierce's Discovery'—William H. Dempsey, Jr. 32 Bridge St."

As soon as you begin to take this "Discovery" you will feel its bracing, refreshing effect. Buy of your neighborhood drug store in tablets and liquid, or send 10c to Dr. Pierce's Laboratory in Hingham, Ont., for trial size, tablets and write for free medical advice.

AFTER GRIP  
Colds, Fevers or a Random Condition, Take This Advice

Pittsfield, N.Y.—"Four years ago I was a very sick man. The doctor said it was pneumonia. It kept me in bed for five weeks and left me so weak I could hardly get about. A dear friend advised me to try Dr. Pierce's remedies and I did so. After taking a bottle of the Golden Medical Discovery and one of the Favorite Prescription I found I was getting so much stronger that I continued using them, together with Dr. Pierce's Pleasant Pellets, until I fully recovered my strength."—Mrs. Agnes Brunell.

M. R. D. 2408

## Text Of Provisions Of Alternative Scheme Advanced By De Valera

Dublin.—Following is the text of the most important provisions of Mr. De Valera's alternative proposal:

"Status of Ireland.—That the legislative executive and judicial authority of Ireland shall be derived solely from the people of Ireland.

"Terms of Association.—That for the purpose of common concern Ireland shall be associated with the states of the British Commonwealth, namely, the Kingdom of Great Britain, the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand and the Union of South Africa.

"That when acting as an associate, the rights, status and privileges of Ireland shall in no respect be less than those enjoyed by any other component state of the British Commonwealth; that the matters of common concern shall include defense, peace, war, political treaties and all matters now treated as of common concern among the states of the British Commonwealth and that in these matters there shall be between Ireland and the states of the British Commonwealth such concerted action founded on consultation as the several governments may determine.

"That in virtue of this association of Ireland with the states of the British Commonwealth the citizens of Ireland in any of these states shall not be subject to any disabilities which a citizen of one of the component states of the British Commonwealth would not be subject to, and reciprocally for the citizens of these states in Ireland.

"That for the purposes of the association Ireland shall recognize His Britannic Majesty as head of the association.

"That so far as her resources permit, Ireland shall provide for her own defense by sea, land and air, shall resist by force any attempt by a foreign power to violate the integrity of her soil or territorial waters, or to use them for any purpose hostile to Great Britain and the other associated states.

"The document sets forth in detail in somewhat similar terms to the Downing Street treaty the partitioning of Ireland, with a list of harbor facilities and an agreement to build no submarines except by the consent of the British Commonwealth of states, makes a convention for the

### Settle Shantung Case

New York.—A cable message from Wu Tung Fang, one time Chinese minister to the United States, saying the Peking Government had finally accepted the Japanese terms for the settlement of the Shantung controversy concerning the loans from Tokyo, was made public by Dr. Au So, Canton Government representative in this country.

A resolution added to the document assumes an arbitrated share of the British debt and war pensions, agree to endow no religion, and arrange for the election of a provincial government and for ratification.

As annex names, Berhaves, Queenstown, Belfast and Lough Swilly as harbors remaining in British care, with facilities for the coastal defense by air.

A resolution added to the document expresses willingness to grant the northern six counties any privileges and safeguards not less substantial than those provided for in the document signed at London on December 8.

### Will Pay Quarterly Dividends

Merchants Bank Shareholders Will Be Paid February 1

Montreal.—It was officially announced here that the shareholders of the Merchants Bank are to receive a 1 1/2 per cent. dividend on their stock for the current quarter. It will be paid February 1 to shareholders of record January 4. This is about equal to that which shareholders will receive quarterly on their stock when it is exchanged for Bank of Montreal stock on the proposed two-for-one basis.

### Decrease in Calgary Accidents

Calgary.—Four persons were killed, 131 were more or less seriously injured and 3,000 automobiles damaged in a total of 1,310 automobile and street accidents reported to the city police during the year 1921. The death rate from accidents was the lowest this year of any year for several years.

### WESTERN EDITORS

ROY G. ASHWIN,  
Secretary-Treasurer Saskatchewan Press Association, at present in charge of the office handling the Saskatchewan Farm Loan Debenture campaign. Publisher of the Milestone Mail from July 1, 1915, to August, 1921. Elected to present position May, 1919.

### Influx Of Workers

#### Alarms Port Arthur

Announced Opening of Shipyard Forces Many Unemployed

Port William.—As a result of the announcement that the car works at Port William and the shipyard at Port Arthur would reopen this month, men from all over the Dominion are coming to the head of the lakes. One man even paid his last cent to come from Vancouver, only to find that there was no work to be obtained as the works have not yet opened and there is ample surplus of labor in the two towns when they commence operations.

Civic officials are becoming alarmed at the prospect of a big influx of unemployed from outside, with the certainty that most of the new comers will become a public charge.

### Toronto Has Women

#### Police Magistrate

New Official Was Decorated By King Edward VII.

Toronto.—Dr. Margaret Patterson has been appointed woman police magistrate for Toronto at a salary of \$3,500 per annum.

The new magistrate was born in South Perth, Ont., and graduated in medicine from Northwestern University, Chicago in 1899. She was decorated by King Edward VII. for distinguished service in organizing the national resources of India against the bubonic plague.

### Direct Wireless to Australia

Sent From England Distance of Twelve Thousand Miles

Sydney, New South Wales.—The first direct wireless press message to Australia from England was published December 3 in the Sun. It was sent from the wireless station at Carnarvon, England, a distance of about 12,000 miles.

It was picked almost simultaneously by the powerful wireless stations at Perth, Western Australia, and Melbourne, Victoria, and thence retransmitted to Sydney.

### Lowest Insurance Paid

Toronto.—According to steamship underwriters, the navigation season just closed on the Great Lakes will go down as a record from the standpoint of insurance paid for losses. It is many years since the losses were so small, notwithstanding the fact that the navigation season was the longest on record.

### LUMBERMAN'S FRIEND

The Original and Only Genuine

YARMOUTH, N.B.

## Discuss Important Western Matters At Conference In Winnipeg

### Popularity Of Prince

London.—The Prince of Wales, speaking at a dinner in Rangoon, according to a Rangoon cable, said that nowhere during his three empire tours had he received a warmer welcome than in Rangoon. The subject to which the Prince has captivated the warm-hearted Burmese has been strikingly demonstrated on every possible occasion. During a garden party at Government House he received one prolonged ovation. Also while motoring to a dance at the gymkhana, along a route ablaze with Chinese lanterns, the Prince was greeted with an unbroken roar of cheering in striking refutation of the popular belief that the Oriental crowd was never demonstrative.

### Says Canada Does

#### Not Need Titles

Toronto Paper Is Against Proposed Restoration of Honors

Toronto.—Under the caption "A Privileged Report," a Toronto newspaper says:

"It is reported from Ottawa that French Liberals will make a strong fight for the restoration of lordships and similar honors in Canada. It is strange that such a notion should occupy the minds of public men at a time when so many serious problems demand solution, the tariff, the railways, unemployment and immigration.

"No worthy cause will be advanced by ministering to the vanity of a few socially ambitious men and women.

"The name of Shakespeare or Dickens would not shine any more brightly if it were pressed by Sir or Lord.

"In England, such titles are the natural growth of the social set and their roots are struck in history and tradition. In Canada, we have neither the tradition nor the social environment. A title put here is as much out of harmony with our surroundings as a cocoon tree."

### Alberta Exhibits at Seattle

Seattle, Wash.—The Washington State Horticulture Association's winter show opened here with stock entered from the northwestern states, British Columbia and Alberta. The most distant shipment is that of Charles Albert's White Wyandottes from Edmonton.

### B.C. Seed for Great Britain

New Westminster, B.C.—Fifteen hundred pounds of Douglas fir seed and 1,500 pounds of sitka spruce seed, the first shipment of British Columbia forest seed for the reforestation scheme in Great Britain, has just been made from the government's seed extraction plant here.

### Panama Has Record

Panama.—In spite of the world-wide business depression the volume of shipping traffic through the Panama Canal in 1921 set a new record. The tolls for the calendar year were \$10,325,718 approximately \$30,000 more than the previous year, according to the official report.

### C.P.R. Shops Re-open

Montreal.—Closed down for a holiday since about the middle of December the Canadian Pacific Railway Angus shops have reopened here with the usual complement of men. There will be a working week of four days.

### To Reduce U.S. Forces

Washington.—A bill proposing to reduce the personnel of the army, commissioned and enlisted included, to 75,000, and of the navy to 50,000, was introduced by Senator King, Democrat, Utah.

### No Decision Yet

Ottawa.—It was reported by the highest official circles here that the Liberal Government had not yet discussed the proposal to bury a Canadian unknown soldier in the main entrance of the new parliament buildings.

Winnipeg.—Joint action by Manitoba, Saskatchewan and Alberta, to bring about substantial reductions in freight rates, a reduction in the tariff, transfer of natural resources to control the western provinces and the adoption of similar immigration policies was approved by representatives of the prairie provinces in conference here.

Those present at the conference included Premier Norris, of Manitoba; Premier Greenwood, of Alberta; Hon. J. H. Brownlee, Alberta; Hon. C. A. Dunning, Saskatchewan, and members of the Manitoba cabinet.

The deliberations of the conference, according to the official statement, were in the nature of an exchange of views on matters of mutual interest to the three provinces and the trend of the discussions had in view the improvement of conditions in these provinces, particularly from an agricultural standpoint.

In view of the fact that the action advocated will require to be considered and dealt with by each of the legislatures shortly to convene no definite decisions were arrived at pending action by the respective provincial governments.

There was general agreement on the main principles of the subjects discussed, the statement continues, more particularly that every effort should be exerted to bring about substantial reductions in the tariff rates, a reduction in the tariff and transfer of the natural resources to the western provinces.

The sentiment at the conference favored joint action and close co-operation on the part of the prairie provinces with respect to these issues, and the conclusions arrived at will be submitted to the respective legislatures for full consideration, the official statement says.

### Dominion Lands Reserved

South of Main Line C.P.R. in Saskatchewan and Alberta

Montreal, Jan.—All Dominion lands south of the main line of the Canadian Pacific Railway in Saskatchewan and Alberta have been reserved from homestead or soldier grant, entry, sale or grazing lease, pending the settlement of the land settlement policy of the government. Notification to this effect has been received at the local branch of the Dominion Land Office from the Department of the Interior at Ottawa.

### To Join Expedition

Shesbrooke.—Dr. A. W. Wakefield, of Lake Macleod, who will be a member of the British Mount Everest expedition. The doctor has received an urgent request by cable to join the expedition and has accepted the invitation.

## Nervous Breakdown COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, dizziness, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, a sense of restlessness, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected too, and on the first signs of any weakness of the heart or nerves, dizziness, or physical breakdown do not wait until your case becomes hopeless, but get a remedy which will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

MILBURN'S

HEART AND NERVE PILLS

Mrs. M. Duggan, Young's Cove Road, N.B., writes: "I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at night, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 60c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

And if Any, How Many?**

Questions Which Each Farmer Must Decide For Himself—  
Suitability of Districts Have Important Bearing—Simple Rule Will decide Whether Hogs Are Successfully Handled or Not

In addition to the question: "Why grow bacon pigs?" there comes the question: "Why grow pigs at all, and if any, how many?"

For the man who knows of any other line of agriculture production that will yield him larger returns involve less risk or entail less labor than does swine growing, there is no reason why he should embark in the business. If he does not know of any other such line then there might be good reason why he should give it at least a fair trial. The question is one for each farmer to determine for himself. The most that an outsider can do is to direct attention to a few fundamental facts that should guide him in arriving at a conclusion.

Western Canada is not a country in which farmers can safely specialize in swine growing to the exclusion of all other lines of stock production. Many have tried it but I know of no one who has succeeded. There are good reasons but space forbids setting them forth.

There are many districts in which farmers can embark in the business to an extent that will bring their receipts from hogs up to that obtained from any other source, and there are many others in which it should occupy a place of minor importance.

How is each farmer to know whether the district in which he resides belongs to the former or latter class?

If he is in a short grass country, he should be cautious about embarking in the hog business, because a short grass country is an unsuitable one for the growing of succulent pigs, fatten and coarse grains and without both of these little permanent success can be achieved with hogs, exceeding in a moderate way. If he is in a long grass country where succulent pastures can be obtained every year with a little share of corn, timothy and where coarse grains yield at least a fair crop every year on spring plowing, the man who knows the business, can with safety make swine growing, if not his principal, his second most important line of production.

The other question arises, how is each farmer to know whether he is the man who can, with a reasonable degree of safety, embark in the business of swine growing, or whether he is one of those who should let it alone.

There is a very simple rule by which each can measure himself. At weaning time his pigs are about two months old

and weigh about 30 lbs. each. When marketed they should not exceed six months old and average at least 180 lbs. The man who can not make spring farrowed pigs weigh 180 lbs. in six months has not learned the business. This is the first and simplest test.

A more minute test can be made as follows: Under the conditions described above, the feeder will have to secure a gain of 150 lbs. in four months or 122 days. If he is "pen feed," he should accomplish this with 750 lbs. of grain. If his pigs have the run of the pasture lot, at least one-fifth or 30 lbs. of this gain should be obtained from the pasturage, and the remaining four-fifths, or 120 lbs. should be made with 600 lbs. of grain. The farmer who finds that when this amount of feed has been consumed, his pigs average 180 lbs. each, can flatter himself that he is a successful swine grower. To the extent that they fall below this weight, he should charge himself with having failed, while to the extent that they exceed it, he can justly lay claim to being an expert.

When this question has been decided, he can figure on the value, on the farm, of the grain he has fed and compare it with the returns for the gains made. If the grain was worth \$1.00 per cwt. at the farm, then the 120 lbs. of grain was worth \$6.00, or 5c per pound. What- ever he gets above 5c per lb. may be looked upon as payment for labor and the farmer can determine whether the amount thus obtained is a fair reward for the effort put forth or not and whether or not some other line of production would have been more profitable. In case the returns are less than 5c per lb., the farmer has not only lost money by feeding his grain but has done a lot of work for nothing besides.—Market Examiner.

**LAYS THREE EGGS WITHIN TEN HOURS**

Elmira Hen Works Overtime. Breaking All Rules of Egg-Laying Profession

Mr. George Weber, has the most wonderful egg laying hen in the country. The hen is of the Plymouth Rock stock and about two years old. During the past three weeks it has been in the habit of laying two large eggs every other day. Most wonderful of all the hen laid within a space of ten hours three eggs, all three of normal size.

It was a Christmas gift for Mr. Weber. The hen, the only one of that breed, is a pure bred. At about 2 o'clock a. m., on Christmas morn., Mr. Weber went out to feed the chickens, having just returned from attending midnight services. He found in his collection of eggs one laid by this hen. At about 10 a. m. he again went to feed the chickens and found in the collection three eggs laid by this hen. Mr. Weber believes he has a gold mine.—Copy.

## AROUND THE TOWN

Continued from page 1

Your support will be much appreciated so make an effort to turn out.

Two basketball games have been played this last two Saturdays in the gymnasium between a Rosebud team and some of the town boys. The games were fairly fast and very interesting and although the town boys were much the best and won both games the Rosebud team shows signs of improvement. With a few more games they will be able to put up a stiff argument for themselves.

### Geo. Metz Kills Large Eagle With Whip

About the largest bird ever seen in this district was killed on Tuesday by Mr. Geo. Metz. Mr. Metz was driving in from his farm out east when he saw a gigantic bird feeding on the road which proved on closer sight to be a bronze headed eagle. The king of birds must have been very hungry and defied the team until within a short distance. Mr. Metz got out of the wagon with his whip and the eagle started to fly away. It ran a little but could not get up speed enough to gain height and ran into the barbed wire fence, throwing itself backward. Mr. Metz then came up to it and gave it a crack on the head with his whip whereupon the eagle turned and a very exciting fight ensued. A whip makes a rather poor weapon against a mountain eagle with wings nearly four feet long, and incredibly strong, and it was with difficulty that the bird was finally overpowered and thrown into the wagon. Mr. Metz had driven on about a mile when he suddenly looked around and found the bird about to leave him whereupon he was forced to kill it again, making a thorough job of it this time.

The eagle is a very rare bird

in this district and was probably driven down from his mountain heights by hunger. He measured eight feet three inches between wing tips and had claws the size of a man's hand which showed signs of many a bloody encounter.

### U. S. FARMERS ASK HEAVY DUTIES ON FARM PRODUCE

WASHINGTON, Jan. 14.—Final discussion of the basis of assessing the import duties which are to be written into the new United States tariff bill was started yesterday by Republican members of the senate finance committee. They hope to reach a decision on this the most important and difficult phase of the whole tariff problem, before the end of next week, and then the actual work of constructing the rates will be undertaken. The hope now is that the bill can be reported to the senate around March 1.

Senator Gooding, of Idaho, as spokesman for 25 senators from agricultural states submitted a list of proposed duties. The rates suggested were those advocated by various United States farm organizations. Those which will affect importations from Canada include:

Wheat, 30c bushel; barley, 20c bushel; oats and rye, 15c bushel; cattle, 12c pound; sheep and goats, \$2 head; swine, 7 of one cent; butter and substitutes, 10c pound; milk, sweet or sour, 3 1/2 c gallon, and skimmed milk, one cent a gallon; cream with not more than 20 per cent butter fat, 15c gallon, and five cents a gallon additional for each additional five percent of butter fat; eggs, 8c dozen; poultry 6c pound; corn, 20c bushel; dried beans, 3c pound; green peas, \$1 per cwt; split peas 1c pound; onions, 1c pound potatoes, 1c pound; flax seed, 40c bushel; grass seed, 4c pound; hides, green, 2c pound; dried, 6c pound; fish, frozen or packed in ice, not specially provided for, 20c pound.

Premier Greenfield has succeeded in securing from the Canadian Pacific Railway an

## ADSHEAD'S GARAGE

DIDSBURY

agreement to pay a larger rate of taxation on its right of way in Alberta. This agreement was reached as a result of the Premier's trip to Manitoba. The agreement will be retroactive until January 1st, 1921.

Hon Geo. Hoadley, Minister of Agriculture, has announced important changes in the "Cow Bill" he will present to the coming session. The chief of these will be that the purchaser of cattle under this Bill must accept a certain amount of financial responsibility from the start. Great difficulty has arisen in the past through the present provisions of the Bill under which the purchaser was free of liability for five years.

Headquarters, Military District No. 13, Calgary, announce that officers on the "General Reserve" or "Retired Lists" of the Canadian Militia, residing within the limits of Military District No. 13, (Province of Alberta and territory of MacKenzie) who do not report themselves each year to District Headquarters, in writing, giving present Post Office address, are liable to have their names dropped from the rolls. The rolls are now being revised, and reports are due at District Headquarters.

If the boss wants a thing done it generally simplifies matters a lot to let him have his own way.

## The Country Life Problem

Not long ago, says a writer in the "Problems of Democracy" department of The Literary Digest, a well-known traveler and writer was being shown through the immense Capitol building of a Middle-Western State. "Just are the great army of officials we employ," said his guide, "every man of them was born on a farm." And then the visitor was shown through a quarter of the city where "you can go a mile and see only the homes of retired farmers." Quoth the guide, "This is a wonderful farming State."

Yet, comments the Literary Digest writer, the boys on his farm dream of jobs in town, and old folks on his farms dream of homes in town, and as soon as they can arrange it, hire somebody else to run the farm, and move away. In less "wonderful" farming States, meanwhile, you occasionally see farms abandoned outright, but even the custom of farming by proxy is deplorable.

In "The Country Life Movement," Mr. L. H. Bailey observes, "Farming by proxy or by any absentee method is as disastrous in the long run as the doing of any other business by proxy. I hold that it is essential that the very best people live actually on the land. The crops are there. The livestock is there. The machinery is there. All the investment is in the place itself. If this business is to be most effective, a good man must be constantly with it and manage it. A farm is not like a store or a factory that is shut up at night and on Sunday. The more difficult and complex the farming business becomes, the greater will be the necessity that a good man reside with it."

"The fundamental need," declares Mr. Bailey, "is to place effectively educated men and women in the open country." In his opinion all else depends on this. No formal means can be of any permanent avail until men and women of vision and with trained minds are at hand to work out the plans in an orderly way. Agriculture is now a school subject. It is recognized to be such in the schools course of studies, in the minds of the people, and of educationists and legislators. It has found its way into the high schools. In Western Canada it is the outstanding department in our Universities.

But do the young people thus trained return to the open country? Some of them, of course, but a lamentably small percentage of the total. Why not a larger number? Does farming pay? Is life in the open country attractive? Farming has its off years, and sometimes series of years, when the financial returns are not commensurate with the effort put forth. But the same thing is true of business generally. And usually farming today pays better than in the days of our grandfathers. There are still many hardships in the more remote and pioneer districts, and conditions generally may not be quite so favorable as in the years before the war, but neither are conditions in the cities as favorable, with thousands of men out of employment. Such a situation is, however, only temporary; it will be overcome both in city and country.

Life in the open country is not as attractive as it should be for other reasons. The recreative life of the country community greatly needs to be stimulated. Not only games and recreation days need to be encouraged, but the spirit of relief from continuous and deadening toil must be encouraged. The country population needs to be livened up.

How is this awakening to be brought about? The small towns and villages, which are the real centres of all country districts, and whose very existence depends upon their surrounding farming communities, have a duty and an opportunity in this respect. In his admirable book, "The Little Town," Mr. H. P. Douglas devotes a chapter to "The Town's Country." Says Mr. Douglas, "The town's country is the area which trades with it; which makes common cause with it in buying and selling, in credit and transportation facilities." Its typical functionaries are the retail merchant, the banker, the restaurateur, the doctor, the implement agent, the railway agent.

Moreover, the town's country is the area which comes to it for play, education and worship. Here are the country's moving pictures, its exhibition and sports grounds, and its Chateaus. The country's high schools are here, and most of its ministers of religion live here. Here, though the farmer may not directly share in them, are those social groups and activities which he imitates and possibly envies. Most of the social organizations to which he may belong centre here.

Therefore, the small town has a duty to its own particular "country." And the opportunity is as great as the duty. Among the chief needs of the farming community today is wholesome recreation. There is little community life in the open country, except what centres in the small towns and villages. Its lack constitutes what one man has called "the intolerable condition of country life." In almost every other respect, life in the open country has improved. It is a less isolated life. Railways, telephones, automobiles have greatly relieved loneliness. But it is a lonelier life! No one pretends that it is. There is no play for children; no recreation for the young folks. Yet it must be made livelier or we shall see more and more farms abandoned or farmed by proxy and more and more farm people moving to the city.

If we are to "place effectively educated men and women in the open country," men and women "of vision and with trained minds"—if we are to place them there and keep them there, we must promise them not only prosperity, but a joyful, suitable, merry existence which they will honestly prefer to life in town.

### To Finish Big Store.

The new Hudson Bay store building at Victoria, B.C., the completion of which has been suspended during the war, will be finished and opened for business in the early autumn of this year.

### Houses For Imperial Oil Employees.

Work has been started on construction of sixty dwellings for employees of the Imperial Oil Company at Vancouver. The work is being done under contract by the Dominion Construction Company.

## Necessary That Canada Should Grow Undesirable Ones.

Nation Must Have Men, But Not Undesirable Ones. Both war debt and the railway situation require that Canada must grow, in the opinion of the Journal of the Canadian Bankers' Association, which says that to grow up to these "people of the great spaces." However rigorous the United States may be in immigration regulations, due to the fact that they are approaching the saturation point, Canada's policy, the Journal states, can well afford to differ from that of her neighbor.

"It is well to remember," the Journal adds, "that a prosperous and advancing country has a greater digestion capacity than a stagnating country. Let us winnow out individual undesirables, but men we must have. Work has to be done, and we must keep our own sons from drifting southward."

## IS YOUR STOMACH SOUR? DO YOU BELCH GAS?

If you have sour risings from the stomach, feel bloated and uncomfortable, just try twenty drops of Nerviline in sweetened water. Relief will come quick. Nerviline dispels the gas, sweetens the stomach, makes you fit and fine in a few minutes. As a general household remedy for many ills, nothing is more useful in every home than a 35 cent bottle of good old "Nerviline."

More than one-third of the children in Egypt die before the age of five years.

## Heart Weak, Nerves Shattered After the "Flu."

In a large majority of cases those who survived the last epidemic of Spanish influenza were left with weak hearts, shattered nerves, impoverished blood, and the whole system has been left in such a general weakened and exhausted condition that it has been impossible to get back your old health and strength.

If you are in this condition there is only one thing to do: take a course of Milburn's Heart and Nerve Pills and see how quickly your heart will be strengthened, your nerves toned up and your blood enriched.

Mrs. W. W. Pearce, 34 Seaton St., Toronto, Ont., writes: "I was left with a weak heart and in a rundown condition from the 'flu.' My nerves were badly shattered and such pains in my heart I could not sleep much at night. I took several doctors' medicines without getting any better. My husband got me to try Milburn's Heart and Nerve Pills and after I took one box I was feeling a great deal better. Six boxes have been well and not bothered since."

Price 35c. per box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Burbank's Latest

Has Evolved New Wheat Which Is Exceedingly Early.

After experiments extending over eleven years, Luther Burbank, the great Californian horticulturist, is said to have evolved a "quality" wheat, containing over fourteen per cent gluten, an astonishing improvement in this grain. The new type of wheat has a very large white, flinty kernel and produces a very white flour.

The new wheat, according to Mr. Burbank, is an exceedingly early wheat, being the earliest of some four or five hundred varieties which he has been growing. It has been tested alongside sixty-eight of the best wheats in the world, and has exceeded them all in yield, uniformity and all other desirable characteristics. The growth is strong, being four feet on good ordinary soil, it tillers unusually well, and on ordinary valley soil, with special cultivation, care, or fertilizing, produced this summer at the rate of 49.38 bushels per acre, every plant and every kernel large and uniform, as this wheat was originally grown from one single kernel.

Nature was preoccupied when she put long hair on hunting dogs and filled the woods with burs.

## She Feels As Fine As A Growing Girl, Says This Winnipeg Woman

"My heart goes out to anyone suffering from indigestion and nervousness, and I want to tell them all about this grand Tanlac, for it is the medicine that relieved me of these troubles and restored my health," said Mrs. S. Jackson, wife of a prominent business man residing at 429 Agnes St., Winnipeg.

"Before I got Tanlac I was in a dreadfully nervous condition. I couldn't stand the least little noise, and at times I became so upset I was afraid I would go into hysterics. My appetite was so poor I had no desire to eat, and couldn't relish my meals

at all. My food didn't digest properly, and I was in a badly rundown condition. My sleep was restless and broken, and I felt miserable all the time.

"Well, Tanlac has rid me of all my troubles, and put me in such fine health. I feel as fine as when I was a growing girl. I eat good and hearty and enjoy my meals, and never have a care or worry. Why, I feel as fine as anybody could want to feel, and I can't help but be delighted and enthusiastic over this wonderful Tanlac."

Tanlac is sold by leading druggists everywhere.

## Livestock For England

Edmonton District Has Made First Commercial Consignment.

A livestock shipment of importance to Central Alberta breeders has just been made from Edmonton consisting of four carloads of choice steers, all weighing about 1,400 pounds, bought from their original owners at 84 cents a pound, which have left for England. This is the first commercial consignment ever made from the Edmonton district overseas, and it is expected to be the precursor of a regular traffic.

### Valuable Furs Sent to U.S.

Furs to the value of \$1,500,000 were sent to the United States through this city in 1920, according to annual report of the United States custom house.

Milner's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

### Will Be Honored Guest.

The Prince of Wales has accepted an invitation from the West India Committee to attend a banquet in London, on June 24, to be presided over by Lord Harewood, the president. It is interesting to recall that it is just over 100 years ago that the committee had the honor of entertaining the Duke of Clarence, afterwards King William IV, and the Duke of York, the Prince's great-great-grandfathers.

Pioneer Dies At Vancouver. Vancouver—Joseph Guichon, 78, a pioneer of British Columbia, and owner of the second largest ranch in the province, embracing 38,000 acres, died here recently following a long illness. A widow, four daughters and three sons survive.

## THE BEST MEDICINE FOR LITTLE ONES

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Therrien, Gabriel de Brandon, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before trying the Tablets, but they soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Building In Western Canada. Contracts for building construction during January, and February of this year in the western provinces totalled \$5,547,000 in value against \$3,900,000 for the first two months of last year.

## Heals Inflamed Nostrils Stops Catarrhal Discharge Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhose has upon Catarrhal conditions of the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it everyday. No many medicines to take—you just breathe in the balsamic vapor of the healing essence of Catarrhose and feel better at once. Catarrhose is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhose will reach it. You can be free from coughs, colds, bronchitis and the like by using Catarrhose. Two months' treatment One Dollar, small size. Dealers everywhere, as the Catarrhose Co., Montreal.

## The Homesteaders

—BY—  
ROBERT J. C. STEAD  
Published by Special Arrangement With the Author.

(Continued)

The name at the end of the telegram was unknown to either Harris or his son, but Gardiner assured them it was one to compare with in the financial world. His excitement was scarcely less than Allan's. Gardiner choked a flood of questions on his lips with a quick imperative glance. Even Riles did not know that the telegram had been written a few doors down the street by a stealthy man in a popper and suit.

"I'll take a chance," said Harris, at last. "I'll take a chance!" interjected Gardiner, with momentary abruptness. "It was a chance a minute ago, it's a certainty now. It's the clasp of a lifetime."

"Where some paper?" asked Allan. "Let's get a telegram away right off." Gardiner produced a notebook and, at Harris's direction, dictated a telegram to Bradshaw, directing him to dispose of the farm at once along the lines of the instructions already given him. He was to cash the agreement and wire the proceeds to Harris.

Then followed four chaotic days. Fortune seemed to hang on Bradshaw's doctored in making an immediate sale of the farm. It was a large order, and yet Harris felt confident a buyer would be found. The price asked was not unduly exorbitant, especially when it was remembered that the road would go to the purchaser, and was now almost ready for the offer. Bradshaw was in constant touch with well-to-do farmers from the South who were on the look-out for land and his own banking facilities would enable him to forward the cash as soon as a sale was assured, without waiting for actual payment by the purchaser. \$3

## Strength

Strength of muscle does not indicate strength of nerves. On this account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes: "I had been troubled for quite a while with indigestion, for some time would be a twitching of the nerves of my stomach; and I also found it difficult to get a good night's sleep. I am a middle-aged man, and owing to the nature of my work my system became run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and am doing much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it should be a very useful run-down and getting a box. Dr. Chase's Nerve Food, 50¢ a box, all dealers, or Edmundson, Bates & Co., Limited, Toronto.

Harris was confident in the midst of his anxiety.

A gentleman's agreement had been made with Gardiner and Riles that no word was to be said concerning their investment until it was a completed fact. Gardiner dropped in occasionally to learn if any word had come from Bradshaw, but it was not until the afternoon of the fourth day that the fateful yellow envelope was handed in at the hotel. As it happened, Gardiner and Riles were present at the moment. They slipped into the back room and waited in a fever of expectation for Harris to announce the contents.

Harris and Allan read the message twice before speaking; then Allan repeated it aloud.

"Twenty thousand dollars proceeds sold gone forward by wire your bank. Correspondence follows. Will establish failure to get price asked."

"Bradshaw!" Harris was torn between emotions, and his face worked with unvoiced accusations as he struggled with them. That Bradshaw should have sold the farm for half the price he had anticipated seemed incredible. It was a breach of trust of the most despicable nature. On the other hand, if the amount available would enable them to buy the mine, the huge profit assured from that investment would much more than offset the loss on the farm. Gardiner and Riles, too, were visibly downcast when they heard the amount. Gardiner promptly grasped the situation.

"It's less than we figured on," he said, "but perhaps we can get through it all. The thing to do is to get out to the mine at once with this money. It will be sufficient to prove the genuineness of our intentions, and induce him into town. Then Riles can put his name to it and buy the mine, and that, with the twenty thousand, should hold the deal until Riles can realize his farm. Within a very short time we can turn the whole thing over to the New Yorkers, and take it in the pocket."

"Say, Gardiner," said Allan, speaking as one who had been struck by a bolt of lightning and thought, "When do you come in on this deal? In your old stick up in the hills coming through the half?"

"Not a cent," said Gardiner. "As for where I come in, well, dealing with old friends like Riles and the Harries, I considered that a second try might be a fancy that when they feel the pulse in their pockets they will be disposed to be not only fair, but generous, and of course if I put up part of the money I will expect my share of profit. But I'm not asking for any assurance. I'm just going to leave that to you."

"Well, that's decent, anyway," Harris agreed. "I haven't as much money as I expected, but if we can pull it through it may be all right yet. Of course, you remember that I haven't promised to put up dollar unless I like the looks of the mine when I see it." Harris said with quiver of hesitation about entering into a transaction so much out of his beaten path, and he took occasion from time to time to make that an excuse of retreat was still open.

"That's the understanding, exactly," Gardiner said. "You're the man with the money, and if you don't like it, don't pay."

At last once visited the bank, and returned shortly with the information that the amount, less a somewhat trifling percentage for transmission and exchange, was already deposited to his credit.

"Then let us lose no more time," said Gardiner, with enthusiasm. "You will need a team and the rig, and you better pack a couple of blankets and some grub. Make the stableman throw in a couple of saddles; you may have to ride the last part of the trip. Riles and I will make it the whole way on horseback." Gardiner then remembered that it would be necessary for him to go back to the ranch and change horses, but he described in detail the road they should take, and assured them they could not miss it. It was the main road to the river valley—up and up—and if they drove hard they would reach that night a spot where an old, deserted cabin stood back in a clump of poplars.

It would be a good place to spend the night, and Riles and Gardiner would meet them there. If, indeed, they did not overtake them on the road. Neither Harris nor Allan had any fear of a strange trail; they had been bred to a sense of direction and location all their lives, and were confident they would find no difficulty in reaching the rendezvous.

"Better make your own arrangement about the horses," Gardiner whispered as they left the room. "We can't be too careful to keep our business secret."

As they stood for a moment in the waiting room it occurred to Allan that some shooting outfit be found in the mountains. "You haven't got a gun you could lend me, I suppose?" he said to Gardiner.

"What do you want a gun for?" Gardiner demanded brusquely. "Might get a shot at a prairie dog, or something. No harm in having one along, is there?"

"Oh, no, but I don't expect you'll see anything to justify the trouble. Anyway, I haven't got one."

"Here's a silver gun here," said the hotel clerk, who had overheard the last remark. "If that would suit you. A Gandy who was taking a short course in poker put it up a few days ago as a stand-off on his last score. There's been no complaint if it's worth that to you, take it."

He handed the gun over counter, and Allan examined it with interest. He recognized an English weapon of

## BEECHAM'S PILLS Sweeten the Stomach

A value out of all proportion to the price asked.

"I'll take it," he said, and paid down the money. There was a momentary darkening of Gardiner's face which nobody noticed.

The little party then moved out to the street. Gardiner had regained his smooth manner, and gave some faint directions about the road.

"Oh, well, and it all right," said Allan in high spirits, "and we'll buy you to the chummy unless you've some faster again at home than this one you have."

"So long," called Gardiner. "So long and good luck."

"So long, good luck," repeated Riles. He was trying to play the game, but, as Gardiner often reminded him, he had no imagination. It would have been quite impossible for Riles, on his own initiative, to have thought of giving the Harries "good luck" on the journey they were about to commence.

Interesting types of vices—one gentlemanly, suave, deep and resourceful; the other, coarse, shallow, ill-souled and brutal. The chance of one against society was wholly intolerant; or the other, almost wholly physical. Gardiner, fully appreciated the difference and in his heart he felt a contempt and loathing toward Riles which he concealed only as a matter of policy. And he had worked out in his mind a little plan by which Riles, when his usefulness was ended, should be shifted off with out any share in the booty. At present he looked him because of necessity. There was work before them for which Riles was peculiarly qualified.

The Harries went at once to a fly-vizor, where they arranged for a team and outfit. They then bought some cartridges for the gun, and a small handbag in which to carry the money.

When Harris presented himself at the bank he asked for the full amount to his credit in cash. The half-faced clerk turned a trifle paler still and slipped into the manager's office. A moment later the manager himself appeared before them.

"It's a pretty heavy order on a country bank. My Harries. Of course we could give it to you in exchange, but to pay twenty thousand dollars on thereabouts in bills and drafts is almost our last dollar. Can't you use a marked cheque, or a draft on a Calgary bank?"

"Well, no," Harris said. "I'm afraid we can't." "A marked cheque is as good as bills," the banker argued, "and much easier to carry, not to speak of being safer." He added, in an afterthought, "Travelling with that amount of money on you is a sort of delusion of natural law, especially with the country full of strangers, as it is at present." The banker looked from the powerful frame of the farmer to the equally powerful frame of the farmer's

son, and his eye fell on the gun which the latter carried under his arm. "But I guess," he continued with a laugh, "there isn't much danger on that score."

"Nothing I speak of," said Harris. "And while I don't want to break your bank, I do want to get that money, and I get it in bills, or part of it in gold or silver would do. The fact is, I don't mind telling you I've a deal on."

"I've undertaken to put up this money in cash—tonight." The banker ruminated for a few minutes. Experience had told him that with a certain class of men money in bills was more valuable than money in a cheque or draft. The very bulk of the currency seemed to impress them. He had seen an itinerant refuse a twelve-hundred-dollar marked cheque for his property, and get surrender greedily of the sight of a thousand one-dollar bills piled on a table before him. This was a trait of human nature found in many persons unaccustomed to the handling of

considerable sums of money, and sharp traders considered it good business to take advantage of it. The banker thought he understood why Harris wanted all the money in bills, although the sum was larger than he had even seen handled in that way before.

A young man emerged from somewhere and locked the front door of the bank.

## World Happenings Briefly Told

The wedding of Princess Mary to Viscount Lascelles has been set for February 28, according to the London Daily Mail.

Building permits in Moose Jaw for 1921 were \$550,177, as against \$1,533,095. The 1920 permits included one million for the C.P.R. electric and of-fice building.

Unless 100 border amateur radio operators apply for Dominion licenses, the Windsor, Ont., patrol of the Canadian Mounted Police has received orders to dismantle all their wireless equipment.

A Belgian passenger on the steamer Zealand, who had been deported from New York, jumped overboard at sea and was drowned, the steamer's officers reported on her arrival at Plymouth, Eng.

A bomb was exploded among the crowd listening to a band in the market place of Dinkelsbühl, Bavaria, on New Year's Eve, injuring 60 persons, 26 of them seriously. The thrower of the bomb, a youth, and several other persons, were arrested.

The wedding of Charles Phillips, London, had progressed to the point where the registrar asked the bridegroom's full name. Then it was learned Phillips had delegated his brother to take his place while he went to France on important business. The wedding was postponed.

The New Year's toll of casualties from poisonous liquor amounted to four dead and six dangerously ill in New York hospitals, with uncounted scores of cases of acute alcoholism and accidents attributed to holiday liquor. One case of alcoholic paralysis was reported.

The Austrian Government has permitted the fact to become known that the Vickers Armstrong Company, a British concern, had made an offer to purchase the great Woolerodorf Arsenal, which it is proposed to convert into a plant for the manufacture of locomotives on orders received from the Balkan States.

## Profitable Mining

Cobalt District Produced \$200,000,000 Worth of Silver in 1921

According to statistics already gathered and estimates being prepared for 1921 it is evident that the value of silver produced up to the end of 1921 from Cobalt and the surrounding district, will reach an aggregate of close to \$200,000,000. Total dividends from the silver mines will exceed \$33,000,000, and with the treasures containing sulphur, which, combined with disbursements actually made, show a net profit of over 50 per cent. of the gross yield. This is an achievement without parallel in the history of any other metal mining area.

## For Hiccups and Heartburn Here Is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nervine" in sweetened water. Nervine relieves those conditions that cause the hiccups, just as it does sour rashes, gas belching and fermentation in the stomach. For acute stomach indigestion, nausea and similar ills, rely on trusty old Nervine—the true friend of every family. Sold by all dealers, 50c per bottle.

## Growing Tobacco in Manitoba

Tobacco growing is the latest phase of agriculture introduced into North-west Manitoba. Messrs Jacob and Gaspin, two Belgians, who exported a tobacco seed to this year, produced a tobacco said to be the equal to the Quebec product. They announce their intention of going into tobacco raising on a large scale next year.

## WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. If in no other manner that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Canada's First Hemp

The hemp crop for 1921—the first year that it has been cultivated extensively—will be large, according to a Winnipeg company, under whose direction farmers in the province seed and now the hemp. Five hundred tons will be realized at Portage la Prairie.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Value of B.C. Minerals. An estimate based on official returns places the value of the mineral productions of British Columbia for 1921 at \$24,513,309.

## You wouldn't put on hobbles to run a foot race

Then why load up on handicaps for the day's work?

A good deal of food, unwisely chosen, does weigh the body down and clog the digestion, and dull the brain.

Why put on the hobbles?

Grape-Nuts is a breakfast or lunch-time dish for those who want food efficiency, and mind and body efficiency.

Grape-Nuts satisfies and nourishes. It delights the taste. It is ready to serve whenever you are ready to eat. And it digests easily, quickly and completely—leaving no handicap of heaviness and drowsiness.

Grape-Nuts is the food for health and action.

"There's a Reason"

Made by Canadian Postum Cereal Co., Ltd., Windsor, Ont.

Sold by good grocers everywhere!

## Tea Frock of Chiffon And Crystal Bubles

By Marie Belmont

Crystal bubbles effectively cover this frock of orange chiffon. The dress is simple in design, showing a straight side panel dropping free in the back from shoulders to hem line.

The importance of little things in costume detail is here symbolized in the tiny band of silver which draws the neck line together in front. The silver note re-appears in the underbrace which shows beneath the slit, and in the narrow silver girde.

Silver bubbles are standing on a background of white, and this frock in very youthful and charming in white and silver.

Minard's Liniment For Distemper

A Certain Cure. Not a hundred miles from Holkeston a few months ago a wife lay very ill. Having brought up a clever orphan girl, the sick woman called the young woman to her and said: "I shall soon leave my little children motherless. They know you and love you, and after I am gone I want you and my husband to marry." The young woman, bursting into tears, said: "We were just talking about that." The wife recovered.

## "Cascarets" If Sick Bilious, Headachy From the Bowels

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold. Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascarets work while you sleep; cleanse the stomach of your fermenting food and foul gases; take the excess bile from liver and carry out of the system all the constipated poison in the bowels. A Cascarets physic to night will straighten you out by morning.

## Mother! Open Child's Bowels With California Fig Syrup

Your little one will love the "fruit" taste of "California Fig Syrup" even if constipated, bilious, irritable, fussy, or full of cold. A teaspoonful leaves little to clean the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the out of the system all the constipated poison in the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Minard's Liniment For Warts, Corns, Etc.

## 11 OUT OF 83

Causes ended in death! So a recent Canadian investigation showed. Those were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood poisoning and death resulted. When you or your children sustain any injury, secure against infection by applying Zam-Buk. This ointment stops the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 60c. box.

## Zam-Buk

Apples For Scotland. An initial shipment of 770 boxes of apples has been sent from Grand Forks to Vancouver, for shipment direct to Glasgow, Scotland, by way of the Panama Canal.

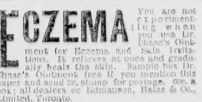

Cuts and Bruises Disappear—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

The War Horse. "General Braddock," wrote the novel, "was killed for the late war. He had three horses shot under him, while the fourth went through his clothes."

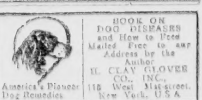

## MONEY ORDERS

Domestic Express Money Orders are on file in five thousand cities throughout Canada.

"THE STORE THAT NEVER DISAPPOINTS"

## Curlers Out of Luck

The two curling rinks which attended the Olds bonspiel from here were not overloaded with prizes on the way home. They both lacked the comradeship of Lady Luck who could have helped them but wasn't with them. Outside of that however there was some very good curling and both rinks put up some very good games against several of the veteran rinks from the northern towns. Inisfail being the main bugbear against whom they bumped. They were given a good reception by the Olds curlers and it is hoped that the courtesy may be returned at an early date. Didsbury should get more into the curling limelight than she is at present. Out of a membership

of 60 surely a couple of rinks can be chosen which will be eligible to take in the bonspiels which are held every winter not only in neighboring towns but in Red Deer and Calgary. How about it?

Hockey in town seems to be on the blink this winter. The boys played a game in Crossfield a week ago. Tuesday in which they lost 7-6, and another in Olds on Friday losing 6-1. There is one big excuse for the boys this year which so far they have been unable to overcome, that is the lack of material. They have barely enough boys to make up the team and when any of them are sick or away, as is bound to happen, they are put under a serious handicap. This is the first season for years that the

team has fallen down so bad and we hope that present matters can be improved upon.

If a person says a mean thing about you and it isn't true, why worry about it? Let the one who said it worry. The time to worry is when it is true.

## DIED

COOK—On Thursday, January 12th, 1922, at her home east of Didsbury, Mrs. J. A. Cook, aged 31 years. Obituary will appear next week.

BORN—At the Didsbury General Hospital on January 6th, 1922, to Mr. and Mrs. L. Mjolsness, a daughter.

BORN—At the Didsbury General Hospital on January 12th, 1922, to Mr. and Mrs. J. Thomas, a daughter.

## CARD OF THANKS

I wish to take this means of thanking all those neighbors and friends who so ably assisted me during the recent illness and death of my dear wife and to assure them that their kindness is greatly appreciated.

Geo. Watts.
